

26 DE JULIO

DÍA INTERNACIONAL PARA LA DEFENSA  
*del Sistema Manglar*

CONOCE 3 ESPECIES QUE  
HABITAN EN ELLOS

**REY CONGO**  
*(Nyctanassa violacea)*

**CANARIO DE MANGLAR**  
(*Setophaga petechia*)

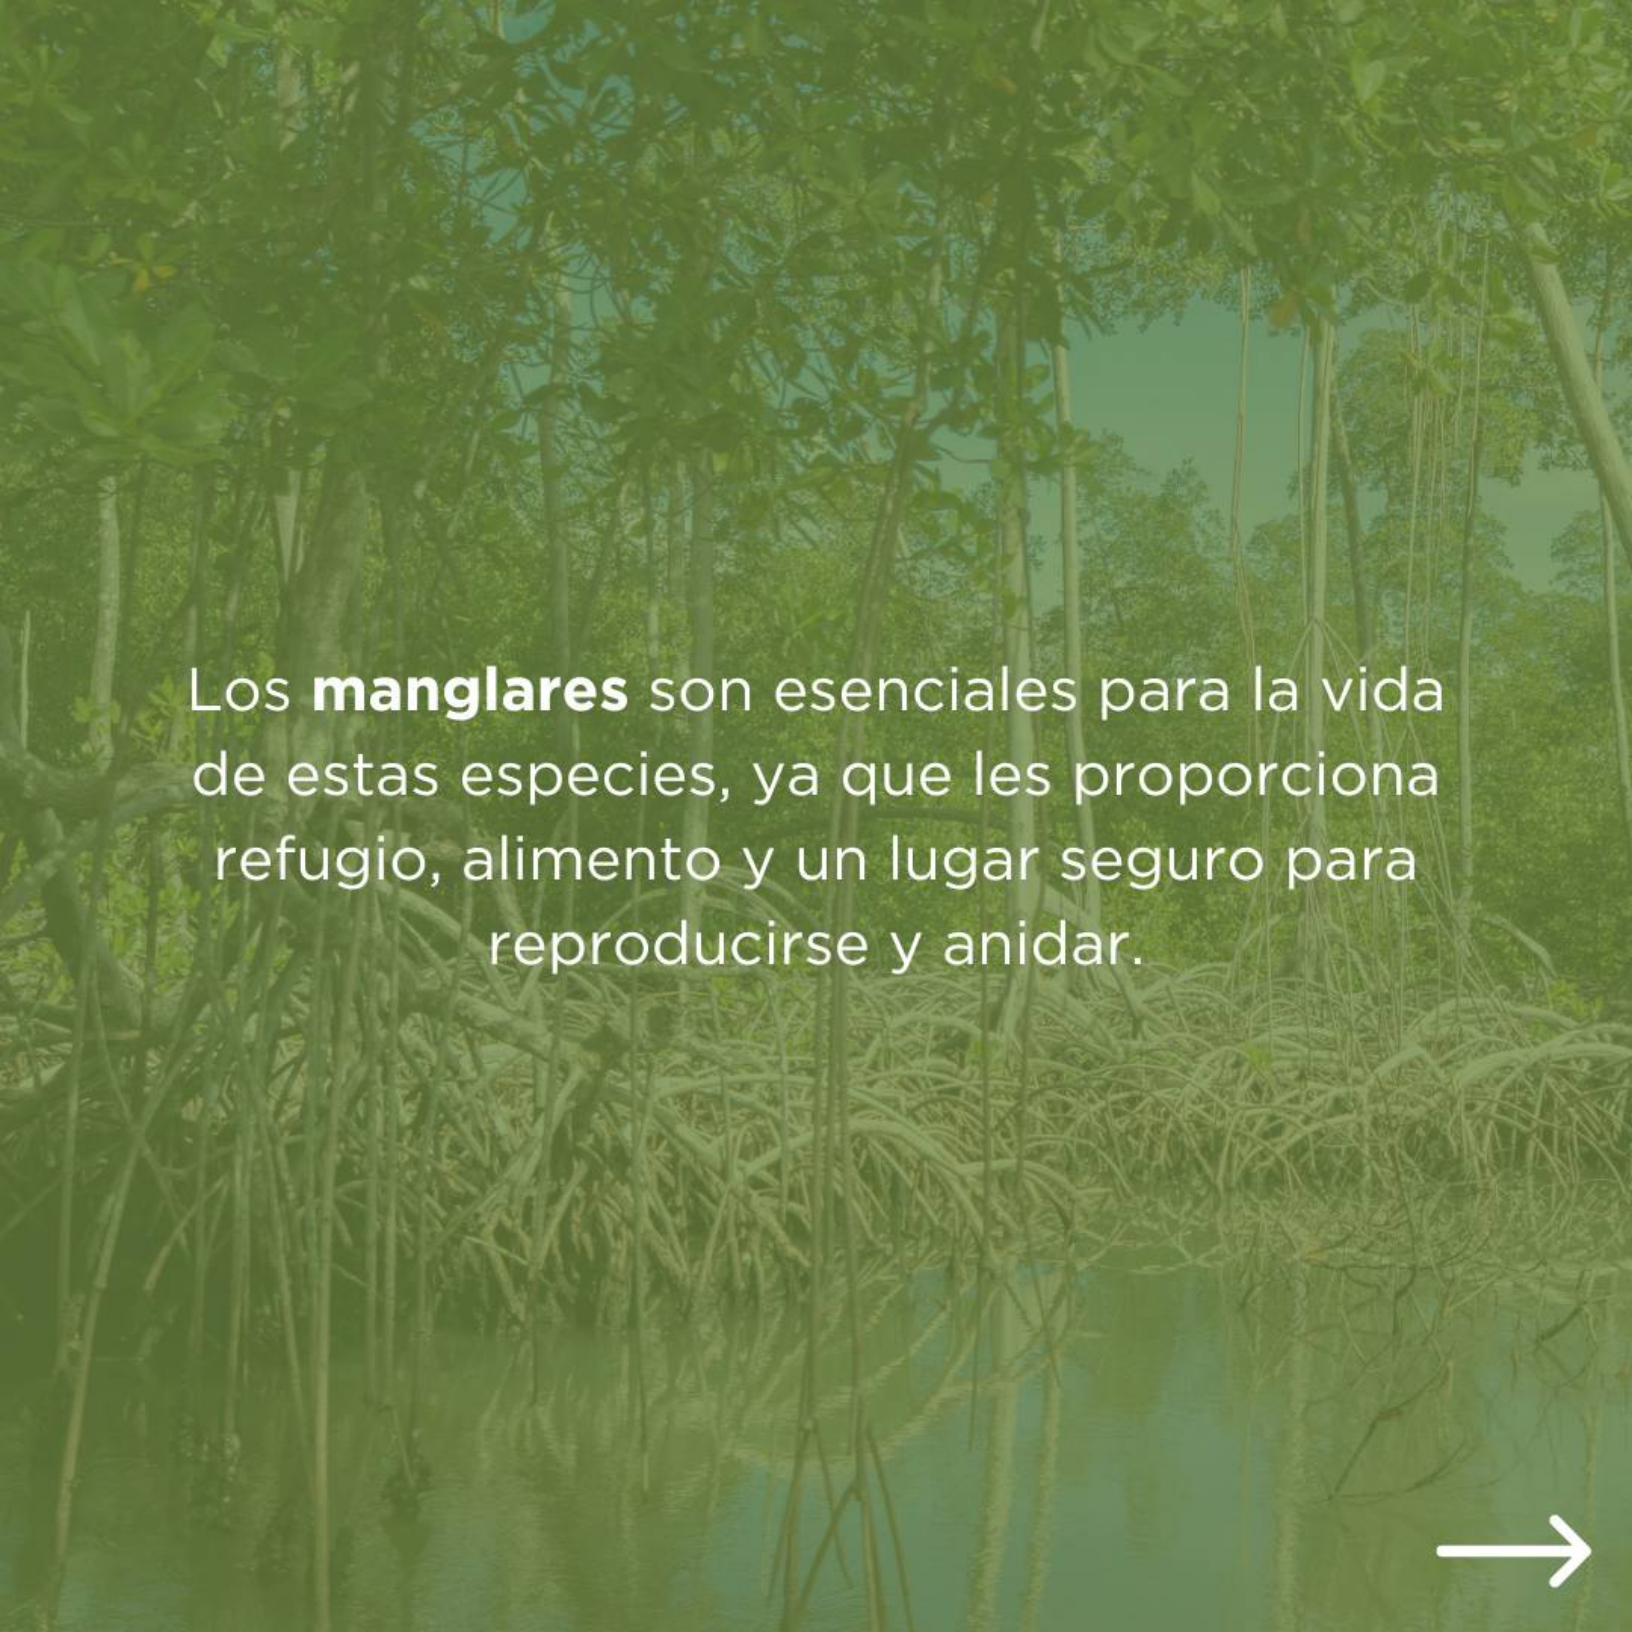

**LA GARZA AZUL**  
(*Ardea herodias*)

A photograph of a mangrove forest. The image shows a dense stand of trees with prominent prop roots extending into a body of water in the foreground. The water is calm, reflecting the surrounding greenery. The overall scene is lush and green, with a slightly hazy or overcast sky visible through the canopy. The text is overlaid in the center of the image.

Los **manglares** son esenciales para la vida de estas especies, ya que les proporciona refugio, alimento y un lugar seguro para reproducirse y anidar.
